

The FabLabs as a Strategy to Capacitate Technopreneurs in the Regions

Undersecretary Nora K. Terrado
Trade and Investments Promotion Group
Department of Trade and Industry

DIGITALIZATION IS PACING AT A VELOCITY FASTER THAN LIGHT

Since 1888, Kodak has given rise to amateur photography and created campaigns on capturing everyday moments in life

On 1975, Steven Sasson – a Kodak employee, invented the first digital camera

Lack of support to the engineer

Inability to open the available technology

On 2012, Kodak filed for bankruptcy

FABLAB

Provides opportunities for entrepreneurs and individuals to develop and produce prototype products that are not accessible by conventional industrial scale technologies
